### Four-Colored ... Apples.

(Copyright, 1906, by E. C. Parcella.)  
Colonel Gresham, stockbroker, turn-  
ed gentleman farmer to produce new  
varieties of fruits.

Nature grows some two-colored ap-  
ples, but when you ask her to add two  
additional colors she wants time to  
think the matter over. Every experi-  
ment was a failure, but that only made  
the colonel and his gardener the more  
determined, especially the gardener.

It was his duty as an employee  
to give his master all his ideas, but he  
made an exception in this one case.  
He clung to it with dogged obstinacy,  
but he kept it as secret as the grave.  
He might have clung to it a year or so  
longer had not the colonel become im-  
patient. He said something one June  
day about giving up the experiments,  
and the gardener replied that he would  
have some news for him next day. He  
asked the broker to come home an  
hour earlier than usual and to come  
directly to the large farm barn.

At the hour named the colonel was  
there. He had scarcely entered the  
barn when he received a crack on the  
head that made him unconscious for  
the next quarter of an hour. When he  
came to he had been stripped of coat,  
vest and tie and was bound hand and  
foot. He had not caught sight of his  
assailant before being struck, but now  
found the gardener hovering over him  
with a murderous look on his face.

"Will you tell me what this means,  
Henry?" asked the victim.

"Yes, sir. I have finally found how  
to grow four-colored apples. It has  
been a long time, but I have struck  
it at last. I hope to have fifty bushels  
on the market this fall."

"Well, let's hear about it."

"All the apple trees are now in blossom.  
The red ones are all right, and the  
yellow ones are all right, and I  
have found a way to make the blue  
and green ones all right. I have sim-  
ply to sprinkle them with the blood of  
a man wearing side whiskers. A drop  
of blood to a blossom will do the trick,  
and once the apples start to grow  
that way they will continue."

Now, the colonel had a growth of  
side whiskers that were the envy of  
Wall street and a matter of joy to  
himself. Whenever you saw the colonel  
you saw his whiskers. He might  
forget his commutation ticket now and  
then, but never his whiskers. The  
two were one and inseparable. He  
didn't like the gardener's reference to  
those sacred objects. It smacked of  
familiarity, and there was a covert  
threat behind the words. He was at  
first inclined to bluster, but another  
look into the gardener's face satisfied  
him that the man had become crazy.  
He therefore changed his tactics and  
quietly said:

"All right, Henry. We will go up to  
the orchard and experiment. I am de-  
lighted to find that you have achieved  
success at last."

"But how can you go when I want  
your blood?" asked the man. "You  
see, you are the only man around here  
with side whiskers. If the coachman  
or the butler had 'em, that would do,  
but they haven't, you know. They are  
fine ones, colonel—fine ones."

And Chapman bent down and tenderly  
caressed the iron gray side  
whiskers that floated away from each  
cheek and were gently stirred now  
and then by the June breezes blowing  
into the open door. Never had another  
man on this earth except the barber  
dared to lay his sacrilegious hands on  
those revered objects of the money  
center of the world.

"But we will look up some one else,"  
said the colonel as he felt a sinking of  
the heart. "I know of several men  
with side whiskers, and I will coax one  
of them home with me tomorrow."

"But I must have the blood today,  
colonel. Besides, for this first experi-  
ment we must have the nicest sort of  
whiskers. There is nothing in the state  
of New York to compare with yours.  
The papers have said so over and over  
again. How soft they are! How luxu-  
riantly they grow! How the breeze  
toys with them! Your blood is all  
right, and the first bushel of four-colored  
apples shall be deposited on your  
grave."

"But I want to see the trees you  
have selected. I may decide to make  
some changes."

"The trees are all right, colonel.  
Here is a knife to open an artery, and  
here is a pan to catch the blood. What  
shall I do with your whiskers after  
you are dead? It seems a pity to bury  
'em like so much horsehair."

"You blamed fool, this has gone  
far enough!" exclaimed the colonel, go-  
ing to the other extreme. "Unbind me  
at once or I'll have you sent to prison  
for life!"

"It won't do," replied the gardener,  
with a shake of his head and taking up  
a knife he had made ready for the pur-  
pose. "You are as anxious for the four-  
colored apples as I am, and you mustn't  
bring all our labors to naught. Here  
goes for the blood."

The colonel began yelling for help,  
and fortunately the coachman was at  
hand to respond. He entered the barn  
on a run and narrowly escaped being  
stabbed, and the crazy gardener had to  
be knocked down with a club before he  
could be secured. He was found to be  
clean daffy and was sent to an asy-  
lum and is there yet, and should you  
ever visit the institution he will beckon  
you aside and whisper:

"Do you know that if it hadn't been  
for Colonel Gresham we'd be having  
four-colored apples in market today?  
He had the blood, and he had the side  
whiskers, but he backed out just when  
success was certain."

The colonel hated to part with them,  
but he has had all those whiskers  
shaved off. He doesn't want anything  
around him to attract lunatics.

### Denmark Original of Thule?

Was Denmark the original Thule, the  
world's end land of the ancients, be-  
yond which lay only the Stagnant sea?  
Pytheas of Massilia, who was about  
contemporary with Alexander the  
Great, is believed by some to have  
referred to what we now know as Jut-  
land by this name; but, as there is  
nothing to show that Pytheas had  
visited Thule himself, he was probably  
rather vague about it. Since he seems  
to have represented it as a land of the  
midnight sun, others have identified  
it as Iceland or even Greenland, and  
the Thule of the Irish monks of the  
ninth century A. D. was certainly Ice-  
land. But the Thule of Tacitus, which  
lay near the Orkney Islands, must have  
been part of the Shetlands.—London  
Chronicle.

### DOCTOR THE ITCH WHERE THE ITCH IS.

Don't Dose the Stomach to Cure Eczema  
and Other Skin Diseases.

Those afflicted with Eczema, psoriasis,  
salt rheum, or other skin diseases of a  
similar nature, should never dose the  
stomach to rid themselves of the ter-  
rible itch. They should doctor the itch  
where the itch is—cure the skin through  
the skin, not through the stomach.

Eczema and other diseases of a kind-  
red kind are skin diseases—not blood  
diseases. Science has shown that  
Eczema is caused by germs in the skin,  
and that the disease can be eradicated  
only by killing the germs.

Dr. Decatur D. Dennis was one of the  
first physicians to follow out the germ  
theory in skin diseases. Then he dis-  
covered that by mixing oil of winter-  
green with other soothing agents he had  
a liquid prescription which killed the  
germs and cured the awful itch, leaving  
the skin white and smooth. Since that  
time this D. D. D. Prescription has been  
the standard remedy for skin diseases,  
just as D. D. D. soap is the standard  
high grade skin soap.

The first few drops of D. D. D. give  
instant relief from the terrible itch and  
from the ritual burning of the diseased  
skin. So reliable is this D. D. D. remedy  
that hundreds of physicians prescribe it.  
It is a wash as thin as water and as  
mild and as pure, which is applied to  
the diseased portion of the skin.

Mrs. Frances Richmond, of Milton,  
Trimble County, Kentucky, writes:  
"My little girl's fingers were sore al-  
most to the bone from Eczema. I used  
part of the sample bottle of D. D. D.  
Prescription received from you and now  
they are well. It is a wonderful skin  
remedy."

We carefully investigated this D. D. D.  
D. Prescription before recommending it  
to our neighbors and patrons, and after  
a long experience we are more than ever  
convinced of its wonderful merits.

You needn't decide now, but call at

how this D. D. D. Prescription gives  
instant relief from itch.

### HIDDEN DANGERS.

Nature Gives Timely Warnings That No  
Astoria Citizens Can Afford  
to Ignore.

DANGER SIGNAL NO. 1 comes from  
the kidney secretions. They will warn  
you when the kidneys are sick. Well  
kidneys excrete a clear, amber fluid. Sick  
kidneys send out a thing, pale and  
foamy, or a thick, red, ill-smelling urine,  
full of sediment and irregular of pas-  
sage.

DANGER SIGNAL NO. 2 comes from  
the back. Back pains, dull and heavy, or  
sharp and acute, tell you of sick kid-  
neys and warn you of the approach of  
dropsy, diabetes and Bright's Disease.  
Doan's Kidney Pills cure sick kidneys  
and cure them permanently.

P. J. Ritchey, living on Seventh  
street, Hillsboro, Ore., says: "For a  
long time I suffered from an acute at-  
tack of kidney trouble. My kidneys  
were very irregular the secretions pas-  
sing very frequently, and were attended  
by severe pain. They were also very  
scanty and my bladder seemed to be  
very weak. I tried a number of remedies  
that were said to cure kidney trouble,  
but received no relief. At last I saw  
an advertisement of Doan's Kidney  
Pills, and procured a box. The pains  
left and as I continued to use them  
the trouble entirely vanished. I gradu-  
ally grew better and now I am without  
a sign of kidney trouble. I recommend  
Doan's Kidney Pills at every oppor-  
tunity."

A Reliable Remedy for Croup.  
Mrs. S. Rosenthal, of Turner, Mich.,  
says: "We have used Chamberlain's  
Cough Medicine for ourselves and child-  
ren for several years and like it very  
much. I think it is the only remedy  
for croup and can highly recommend  
it." For sale by Frank Hart and lead-  
ing druggists.
